## It's a bouquet she can eat!

If your mum loves chocolates and flowers, why not give her a bouquet of chocolates?

Lollypotz, a gift firm that has just hit Perth from the Eastern states, styles a selection of luxury chocolates in a handmade arrangement as spectacular and colourful as a big bunch of flowers ... but these are much longer lasting, need no watering, and are much more delicious!

Lollypotz has been in Perth just a few months, but already has a big name in other states.

Co-owner Tania Western says: "It's the newest gift idea, and the response in Perth has already been amazing."

Most arrangements are based around Ferrero Rocher choocs, but if your mum has a preference — whether it's for Bacis or Mars bars or even

Chuppa-chups — Tania and her team are happy to oblige.

The pots of chocolates can include champagne or wine, and can be designed to suit all sorts of events and recipients, from business and client gifts to baby arrivals and even wedding centrepieces.

And they can be delivered worldwide.

There's an online catalogue at [www.lollypotz.com.au](http://www.lollypotz.com.au), but Tania recommends

people call in to have a look at what's on offer in their bright and colourfully renovated old store on the corner of trendy Lake and Bulwer streets in Perth.

"It's a good idea to come by and see what we can do," she said.

"We have lots of fun making up the arrangements, and they look even more spectacular than they do in our catalogue."
